- 234** chic or shriek! the cowboy boot
so hot or so not? how to turn country bumpkin into city slick.

HOROSCOPE OCTOBER

libra

Strengths: Poised, funny

Weaknesses: Fickle, self-centred

Erotic appeal: Your ultrafeminine charms and sensuality inspire guys to do whatever it takes to make you happy.

Public you: After the 24th, expect your social calendar to be booked solid. All the attention has you feeling a bit outrageous so you might end up with a supersexy outfit your mother would kill you for wearing.

Private you: Naturally sympathetic, you're always there to offer good advice to others. Near the 12th, the moon brings out your weepy side and you may feel like pulling the covers over your head. Instead of throwing yourself a pity party, though, lean on the friends who always come to you in a crisis.

Professional you: use your team-building skills to help prevent a Mars-induced flare-up among co-workers mid-month. Your cool-headed diplomacy will smooth things over so you can all get back to business.

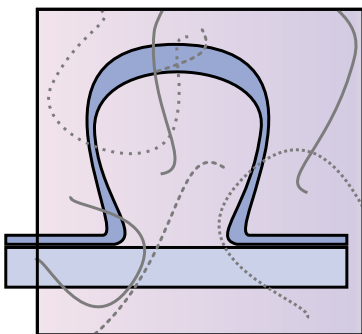

Sexy you: Neptune adds a touch of mystery to your long list of charms this month. Single? Your hard-to-get game brings a bad boy to his knees. By the 18th, you'll have him tamed, turned on and tied to your bedpost. Attached? Thanks to Venus' allure, your seduction powers peak near the 27th. Even if your man thinks he's had enough action for one night, you'll manage to encourage him to stay awake longer.

Love matches

Best: Taurus, Gemini, Libra

Worst: Cancer, Scorpio, Sagittarius

2004 to do: Jupiter and Saturn team up to help you achieve a personal or professional goal. Your intuition is uncanny, so go with your gut and you'll succeed.

libra

September 24 - October 23

Watch it. When Neptune makes you spacey near the 19th, you're likely to lose something, so keep track of your cash.

Single? A guy you meet around the

15th will get you hot and bothered. Attached? You're craving romance near the 10th, so get out the candles and sexy music.

Tip: Gossipy Mercury throws drama your way near the 16th, so ignore your mobile for a few days.

scorpio

October 24 - November 22

Don't dwell on it. Obsessing over a minor misunderstanding with a friend could lead to a major feud on the 22nd.

Single? A lunch-time flirtation could turn naughty near the 28th.

Attached? Ambush him at the door when Saturn puts you in the mood for spontaneous sex near the 2nd.

Tip: At the end of the month, you may get hit with a big project. The 23rd may be your last chance to let loose for a while, so live it up!

sagittarius

November 23 - December 21

Go for it. Whether you're after a new job or new image. Mars gives you an extra push to succeed.

Single? Trying too hard to impress a power player near the 1st won't win him over. Play it low key if you want a second date.

Attached? A rough-and-tumble wrestling match will lead to erotic fun when Jupiter blends your appetite for sex and playfulness mid-month.

Tip: Don't be tempted to stretch the truth when Jupiter inspires you to exaggerate

capricorn

December 22 - January 20

Tune in. A new mood mid-month ups your intuition. Use it to suss out a work-related secret.

Single? A guy you've been perverting on may want a no-strings setup, so make sure you can live with that before bedding him.

Attached? On the 6th, once just isn't enough. Initiate an extra round of lovin' to make sure you're satisfied.

Tip: Your seduction skills are stellar near the 28th under Venus' sexy power, so make a move.

aquarius

January 21 - February 19

Zip it. Resist the urge to lash out unfairly at someone close when Mars makes you irritable on the 10th.

Single? Your quick comebacks floor a guy who prides himself on his finely tuned mind.

Attached? Your man wants to pamper you near the 12th, so let him. You'll be pleasantly surprised.

Tip: Check your chattiness at work on the 19th or the boss could accuse you of being lazy.

pisces

February 20 - March 20

Find a muse. Networking pays off mid-month when you meet a creative type who helps tap your imagination.

Single? It's just lust at first sight when you meet a hot guy in an unlikely place on the 28th.

Attached? All month, you'll be inspired to engage in some randy role-playing.

Tip: Around the 6th, don't overindulge in food, drink or other pleasures - Neptune may cloud your usually good judgement.

aries

March 21 - April 20

Play hardball. On the 10th, bring your boldness to work and get tough with a colleague not pulling her weight.

Single? you might try to make it work with a brainy guy you meet mid-month, but there's no sizzle.

Attached? Make plans for an extreme adventure when you both crave adrenaline-pumping action near the 20th.

Tip: Get the facts before a major money decision after the 12th.

taurus

April 21 - May 21

Kick back. You've been running yourself into the ground lately, so give yourself a long overdue reward near the 10th.

Single? Enjoy the attention when two sweet guys compete for your attention on the 31st.

Attached? Moving your sex sessions to another room, or outside, breaks you out of a rut on the 11th.

Tip: Take advantage of a Jupiter-sent energy boost on the 17th to tackle an annoying project.

gemini

May 22 - June 21

Give thanks. Mid-month, you'll finally have an opportunity to reciprocate when someone who helped you in the past needs a favour.

Single? Your wit and charm will have to work overtime if you want to snag a strong silent type. He's worth the effort though.

Attached? Near the 15th, his bad behaviour might really upset you. The good news: he'll spend the rest of the weekend trying to creatively apologise to you.

Tip: Jupiter kicks up your penchant for partying near the 31st. If none of the bashes you've been invited to sound fun, throw your own.

cancer

June 22 - July 23

Keep trying. Persistence on your part fixes a rift with someone close to you near the 20th.

Single? Near the 25th, Venus might

reveal that your dream guy has been standing right in front of you.

Attached? You may be tempted to brush a major issue under the carpet, but if you don't address it pronto, the problem will come back to haunt you later.

Tip: Watch your mouth near the 30th, when the sun and moon combine to make you critical of others.

leo

July 24 - August 23

Make a scene.

Your sex appeal is at an all-time high after the 25th, so plan on showing off your assets.

Single? An energetic man could jump into your life around the 30th. You may think he's just a good-time guy, but he has long-term potential.

Attached? Your sex drive is super-sized near the 9th, making you crave lots of erotic attention. If your partner's not in the mood, whisper naughty thoughts in his ear until he's just as horny as you are.

Tip: Neptune has you feeling paranoid near the 26th. No one's out to get you, so stop freaking.

virgo

August 24 - September 23

Let down your guard. Opening up about a sensitive subject could turn an acquaintance into a new friend near the 20th.

Single? Fun loving Jupiter says to flirt with every guy you see on the 31st. You can rate them and decide who to date later.

Attached? Plan on spending the weekend in bed when Venus has you craving loads of cuddle time mid-month.

Tip: near the 10th, the nicey-nice act won't work. The only way to get what you want is to ask for it.
